Special dietary requirements (e.g. vegetarian, lactose free, gluten free etc)	

For the interactive consultation on research methods (to be completed until 25 August)

Please provide title and a short (300 words max) summary of the theme, including the main research questions for your planned PhD

Please give a short description of the research methods you plan to use/are using. Indicate whether you are using data collection methods, and if so, which ones. Data is a wide notion, and can include case law, legislation of any level, codes of practice etc. You might also rely on data analysis completed by others. Also tell us which countries you are researching, and whether your research is comparative. Also include the quantity of data you wish to cover, e.g. how many interviews are you conducting, or how many cases are you analyzing?

Space to phrase a specific methodological question (optional)
